## LENOX METALMAX™

### A New Alternative to Abrasive Cut-Off Wheels

#### DIAMETER RETENTION

LENOX METALMAX™ has a brazed diamond edge and a steel body that doesn't get smaller. The cutting depth stays the same throughout its life, meaning better control, reach and precision.

#### SAFETY

LENOX METALMAX™ is made with a solid steel body that is stronger to greatly reduce the risk of breakage.

#### LESS DUST RESIDUE

With LENOX METALMAX™ there is less odor and dust residue as the wheel does not wear down like bonded abrasives. Visible sparks originate only from the material being cut.

#### 1000+ CUTS

LENOX METALMAX™ delivers 1,000 or more cuts with no need for wheel changes. That is 30 times longer life than thin bonded cut-off wheels.

\* Average performance for 4.5" wheel in 1" carbon steel square tube vs thin bonded abrasive cut-off wheels.

### LENOX METALMAX™ RANGE - TYPE 27 CUT-OFF WHEELS
